REPORT FROM THE LIBRARIANS OF THE BARRINGTON PUBLIC LIBRARY

One of the goals that the librarians of the Barrington Public Library have been striving for is to have a shelf list, catalog index and the Dewey decimal system for non-fiction. It is a long tedious job, but we have been able to get this project started and both of us have had a boost in morale by the volunteer help of Mrs. Harry Goodstein.

At the writing of this report, we have just finished re-arranging the books in the library hoping for more efficiency. The library was closed for two weeks, and we worked there both Tuesdays and Wednesdays getting this done, along with some cataloging.

Through the Barrington Public Library approximately 120 films have been distributed and shown as of the end of January.

Calvin Swain put molding up around the ceiling which has been a big lift. It was very discouraging to take a book from the shelf and get a face full of dust and pieces of plaster, cement, etc., plus the fact it got into the books and was damaging them. Even though he was paid for the material and labor, we want to publicly state our appreciation. We have put up with this since the addition and others had offered to do it. We got tired of waiting, and Calvin did it. Many thanks.

This year has seen the price of books like everything else go up, and now most adult fiction and non-fiction books are \$7.00 to \$10.00. Even some children's books are over \$5.00.

We have added 270 new books in 1969. These books include not only purchases but a number of donations from Mrs. Irene Walker, and gifts from Mr. and Mrs. Fred Timm, the Garden Club, and the Cater Family as a memorial.

We can no longer use central ordering through the State Library as that had to be curtailed because of the cutback in appropriations. However, we did receive a \$100.00 from them for reference books. Apparently this will be the last year of that as there is to be a different system of distributing this money which from the information we have at present, seems to eliminate the small library like ours.

Respectfully submitted,

Phyllis Andrade
Ann Brooks

1969 REPORT OF THE BARRINGTON FIRE DEPARTMENT

The 1969 fire log shows 35 reportable calls consisting of 7 building fires, 2 chimney, 16 brush fires and 4 car or truck fires. There were 2 calls to assist out of town, 2 resuscitator and 2 accident calls.

The new fire truck was delivered by the Howe Fire Equipment Co. on January 17. This is a 1,000-gal. tank truck on a 1800 series International chassis with a 250 G.P.M. midship power take off pump.

A concrete floor was poured in the Firehouse addition, interior insulated, room wired and sheetrocked and an overhead door installed.

All labor was donated by members of the Department.

Sumner A. Hayes, Chief

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

Fire Permit

A fire permit is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be prior to 9:00 a.m. and after 5:00 p.m.

Exceptions

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the

landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

Penalties

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

WHITE PINE BLISTER RUST CONTROL PROGRAM

During 1969, the sum of \$68,500.00 was expended on blister rust control of which approximately \$18,000 was contributed by 143 municipalities. This contribution, together with state and federal funds, helped to maintain white pine on more than two and one-half million acres in New Hampshire, being the largest control area in the United States.

Approximately 70% of all lumber cut in New Hampshire is white pine and more than 17% of our labor force is sustained by white pine logging, manufacture, and sales. Furthermore, the contribution of this tree species to the natural beauty of New Hampshire is immeasurable.

Control of this fungus disease has been established over most of the control area. However, it is necessary to periodically examine all pine areas and destroy currant and gooseberry bushes which are part of the life cycle of this destructive disease.

The Division of Resources Development is assigned the responsibility of directing the field work and continued financial cooperation on the part of municipalities is still essential in the program as it has been in past years. We, therefore, urge your appropriation of the requested sum to help maintain the economic status of white pine and the natural beauty which it lends to our state.

You may refer to RSA 223 regarding the role of municipalities in the control of blister rust or call this office for further information.

REPORT OF THE LAKES REGION ASSOCIATION OF NEW HAMPSHIRE

As the Lakes Region association enters its thirty-fifth year of service to the thirty-one towns and three cities it represents, we face the annual task of appeal to our communities for support of their association. Regional cooperation in economic development as practiced by the Regional Associations in New Hampshire, was once most unique, but now several other states have watched the fruits of our efforts and have adopted a similar program for their state. We present herewith our request for your consideration in the preparation of your town's 1970 Budget.

An investment in the future development and promotion of the Lakes Region equal to 1/100 of 1% of the assessed valuation is the basis for our request to each town and city for the 1970 budget of our Association.

The Lakes Region Association becomes the catalyst in coordinating action between the State agencies and the local communities, so that the greatest benefits from research, planning, development and promotion can all be realized within our Region.

We certainly hope that your municipality will participate in support of the Lakes Region Association, for it is with the united support of all shoulders to the wheel, that the wheels of progress turn.

You know what new dollars mean to your town. Cooperation with our program brings in more new dollars. Help your town's progress by investing in the Regional programs that help all towns.

AUDITOR'S REPORT

To the Taxpayers of the Town of Barrington:

The audit of the books of the town for 1969 has been completed and, as in past years, we wish to again thank all town officers for their complete cooperation.

With the exception of a few minor errors which have since been corrected, we found the books properly vouched and correctly cast.

REPORT OF THE DOG OFFICER

During 1969 we processed more than 60 complaints concerning dogs and traveled more than 380 miles in the execution of our duties as dog officer.

Most serious cases involved running dogs. In one instance a dog or dogs killed a large number of pheasant. In a second incident, dogs were involved in the killing of 16 hens. We picked up 28 stray dogs, nine of which could be identified and returned to their owners. The other 19 could not be identified and had to be delivered to a Veterinarian for disposal.

We investigated five cases of dog bite, seven cases where dogs were hit by cars, and were called upon to locate three dogs lost by non-resident owners. We also assisted in the collection of 67 license fees.

This year we would like to point out that New Hampshire State Law requires that all dogs have rabies shots, four months of age and over. A tag and certificate will be issued. The tag must be kept on the animal at all times outside of the owner's home.

All dogs that are not vaccinated or running at large without a tag, will be impounded for 10 days before being destroyed. When this happens, the owner will be notified and may reclaim his dog during this period by paying all costs involved, including having the dog vaccinated.

As of May 30, 1970, under new State Laws, we will be compelled to pick up all dogs not wearing proper license and rabies tags.

WHY WE ARE NOT ENTITLED TO FOUNDATION AID THIS COMING YEAR New Hampshire State Department of Education Division of Administration Concord

EXPLANATION OF THE STATE SCHOOL FOUNDATION AID FORMULA, AS PRESCRIBED BY CHAPTER 198 OF THE REVISED STATUTES ANNOTATED, WITH AMENDMENTS

Application of the Formula to the Barrington School District
Showing Computation of Foundation Aid for
School Year 1970-71

Chapter 198 of the Revised Statutes Annotated as amended in 1957 prescribes the method by which foundation aid to New Hampshire school districts is to be distributed. The outline presented below describes in detail the procedure which has been followed to determine the amount of state foundation aid for each district for the 1970-71 school year. The figures which have been inserted will enable the reader to follow each step in the computation of state aid for the district indicated above.

Two basic factors must be considered in determining the amount of state foundation aid to be paid to a school district. The first is the cost of the educational program which must be maintained in a school district. The second

is the extend of the resources of that district for meeting the cost of the educational program. As an objective measure, the state foundation aid law specifies that the cost of an educational program shall be computed at \$200.00 for each elementary pupil and \$300.00 for each high school pupil residing within a district and educated at district expense. The law further specifies that it shall be the duty of the state board of education to adjust the cost of this required program in accordance with the amount appropriated for distribution as foundation aid. This cost shall not exceed the state average costs per elementary pupil and per high school pupil of all current expenses of operation as established by the state board of education for the year in which the foundation aid computation is made. This cost is referred to as the "foundation program."

On the basis of the amount appropriated for distribution in 1970-71, cost of the foundation program has been set at \$363.45 per elementary pupil and \$510.60 per high school pupil.

The 1968-69 elementary pupil membership of the above named district was reported to be	328.3
When this elementary membership is multiplied by \$363.45, the cost of the elementary portion of the foundation program is found to be	\$119,321.62
The 1968-69 high school pupil membership was reported to be	99.8
When this high school membership is multiplied by \$510.60, the cost of the high school portion of the foundation program is found to be	50,957.60
The cost of the total foundation program of the district is the sum of the elementary cost and the high school cost, and amounts to	\$170,279.22

The state aid law also specifies what is to be used as an objective measure of the resources of a school district for support of its schools. This measure has been designated as the "equalized valuation" of the school district. The law provides that the State Tax Commission shall certify to the State Department of Education the amount of the equalized valuation of each school district.

The 1968 equalized valuation of the above

named school district has been certified by
the Tax Commission as amounting to \$12,798,645

The principle on which the present state aid program operates is that no school district should have to burden itself unreasonably to provide an education for its children which is at least equivalent to the "foundation program." What is considered to be a reasonable effort on the part of a district is represented by a school tax of \$14.00 per \$1,000.00 of equalized valuation. The amount which can be realized by such a tax is called the "local effort."

In this case the "local effort," or the amount
of revenue represented by a \$14.00 tax on the
above valuation is \$179,181.03

It is at this point that the two basic factors of educational burden and community resources are compared. If the "local effort," or objective measure of ability to support schools, is less than the cost of the "foundation program," or objective measure of the burden of school support, the district is eligible for sufficient state aid to make up the difference. If the \$10.00 tax on equalized valuation represents an amount of money greater than the cost of the foundation program, the district is not eligible for any state aid.

On this basis this district is qualified for state
foundation aid for 1970-71 in the amount of 0

Dear Mrs. Newhall:

In reply to your letter of February 4, 1970, the figure of \$12,255,129. furnished to the selectmen was the equalized assessed valuation of land and buildings, excluding public utility and personal property. When these later items are added the equalized assessed value increased to \$12,738,995. as follows:

Equalized assessed value L/B	\$12,255,129.
Equalized assessed value P/U	380,140.
Equalized assessed value P/P	103,726.
Equalized assessed value	\$12,738,995.
Add: Capitalized value other	59,650.
Total Equalized Valuation	\$12,798,645.

*Departmentalized.

**Partially federally funded under Title I, ESEA.

As time passes, there seems to be little diminution in the numbers that public schools are asked to serve. Barrington appears to be no exception. The enrollment in the school system continues to increase. For example, in grades 1-8 in September of 1968, the enrollment was 321, as compared with 351 this year. It would be redundant to point out that the school building is crowded, and there seems little likelihood that this condition will change. The operable year of the AREA School in Rochester may offer temporary relief. In the meantime, it would be advisable to consider making a study of the future building needs of the Barrington school system.

It is gratifying to note that the School Board has been working hard to codify its school board policies. These are especially important as these provide the broad outlines under which the school is conducted by the professional staff. The Board is to be especially commended for its adoption of a new admittance policy for beginning students which is in line with the results of current educational thought, based upon sound research. A copy of these adopted policies is available in the Principal's office. The Board members also maintain copies of these policies. When changes are made, publication of the changes are made available to the patrons of the school through the courtesy of the local representatives of the press.

Perhaps the problem which vexes all voters as much as, or more than any other, is that of financing the local schools. This is very obvious in New Hampshire as much of the revenues needed for schools must come from local property taxes. However, it would be most helpful to local school districts should the General Court fund all of the programs it now has on its books. Please urge your local representatives to implement existing statutes by 100% funding. Under the present conditions, it seems that the local school districts are receiving ever decreasing amounts of state assistance. This is especially important to a rapidly growing community, such as Barrington, where large amounts of property are not increasing in value proportionately with the rapid increase in school age youngsters.

In closing, we would like to express our appreciation for the cooperation received from local citizens, school board members, pupils, and the school staff members.

Respectfully submitted,
Ramon Martineau,
Superintendent of Schools

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

In these perplexing times of rapid technological and social change the problem of educating our young is presenting an increasingly complex challenge. The degree to which we respond to this challenge will influence our nation's cultural values and standing in the world community for generations.

In Barrington, I believe that we are responding to the challenge within the limitations of our resources. The leadership program in physical education, and the improvement of the sports program at the seventh and eighth grade levels

underscore the belief that children need to be evaluated in some other context than that of the classroom. We have attempted to refine our entrance policy and first-grade curriculum so as to better meet the individual needs of the children. As the staff has grown in experience we have become more aware of the guidance role within the classroom and have attempted to improve upon it. Most importantly as a school, I believe we have made significant strides in assisting our children develop the values so essential to the education of modern man.

Through the cooperation of the School Board, faculty and citizens progress has been made, yet since progress is but partial in reality, areas remain in which improvements could be effected. Additional books to help us in our efforts to individualize the reading program are needed as is a more intensive guidance program. Recent research in the area of early childhood learning experiences indicates that public schools could better serve our children's needs with the development of school readiness program. These are but a few of the areas in which change must come if we are to personalize our children's learning experiences to fit their needs.

Finally, I wish to express my gratitude to the teachers, the School Board and the citizens for their commitment in meeting the challenge of change realistically.

Respectfully submitted,
Barry L. Clough

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

The health program for the year, 1968-69, was carried out in the usual manner with an annual physical inspection of each student by the nurse. When defects were noted, the appropriate referral and follow-up were made.

The Heaf Test for tuberculosis was offered in each school to the first and second grade students. A total of 324 children were tested, and 4 also received the Mantoux Test.

The students of Epsom, Northwood, and Strafford again received the benefit of preventive dental care through programs sponsored by the N.H. Bureau of Dental Public Health and one or more local organizations. Barrington, Epsom, and Northwood schools also provided corrective dental treatment through The Matching Funds Program.

142 children were registered for first grade at Preschool Clinics held in April and May. Mrs. Norma Keeler of Epsom again offered her services at these clinics,

and her help was greatly appreciated by all.

The ever increasing school population has had its effect on the health program, as well as elsewhere, raising the case load to well over 1,000 students for one nurse. The recommendation of the N.H. State Board of Education is for a maximum case load not to exceed 750 pupils per nurse; and, ideally, a full-time nurse for every 350 students.

I would like to express my sincere appreciation to Mr. Martineau, Mr. Morgan, School Board Members, teachers and parents for their cooperation and support during the past year.

Respectfully submitted,
DOROTHY Y. WELLS, R.N.
